

WILSON-BRYAN FIGHT TO EVOLVE

DEM. PLATFORM

The president has given deep consideration to many of the plans which will be proposed for the platform, it was learned at the White House, and is prepared to assert his

There are indications today that the president and William Jennings Bryan will be at variance on more questions than one when the convention swings into action.

The president will stand on his plank of ratification of the treaty with nothing more than interpretative reservations. Bryan will follow his announced plan of ratification on the best terms possible.

President Wilson is prepared to make a concession to Bryan on the question of prohibition. The president at present is in favor of his party standing by the present prohibition laws and it is understood that he will aid Bryan in many measures that may be necessary to check movement to secure the indorsement

On the question of universal military training the president and Bryan are again expected to be in variance. The president is still in favor of a moderate form of universal training, while Bryan is in favor of a more radical form.

The president does not look with favor on the movement for government ownership of the railroads, and strong pressure has already been brought to bear to induce the Demo-

The president and Bryan will be in accord on the plank which will concern women. Both will urge that women be included in the

favor of women being given equal rights with men in the holding of public office.

Slowly gaining his strength, the president is daily giving indications of his strong will and those close to him believe that he will exert his

to the utmost during the days when the Democratic party is laying its course for the presidential campaign.

STATE INCOME TAX LAW AMENDMENTS

Persons subject to the New York personal income tax, whose 1920 returns are figured on a fiscal year basis, will have to file them within three and one-half months after they close their books.

"Any phase of this law," said State Comptroller Travis, today, "is of such wide spread interest that I deem it timely to notify those affected of this new amendment which relates not only to individuals but to partnerships and estates and trusts."

"Another amendment gives New Yorkers a breathing spell by permitting them until April 14, 1921, to file their 1920 state returns."

"It will be recalled," the comptroller continued, "that when returns were due this year, I recognized the economic situation brought about by the withdrawal of necessary moneys to pay both the federal and state taxes on March 15. To relieve this condition, I granted a general extension until March 31 and therefore suggested to the legislature that the filing time for the state returns ought to be different than the federal filing period."

Other important amendments to which the comptroller called attention, included the change in the definition of a resident for the purposes of the law. Previously, anyone who took up a residence during the year, or within two and one-half months after its close, was considered a resident. Now, a person has to reside in the state within the last six months of the year, to be considered a resident. This amendment became effective on May 10th, and affects 1919 returns.

THE ARMY SCHOOL AT CAMP GRANT

The United States army recruiting service is calling attention to the opportunities which are open to men who enlist in the army for instruction at the Camp Grant Army School. There are at present a limited number of vacancies at Camp Grant where, beginning June 1, an intensive course will be given in the following departments: Automotive, electrical, building, textile, metal, highway construction and topography, music, machine, business and agriculture. Enlistments for special assignments to these vacancies are authorized for a three year period in all branches of the service except the air service, motor transport corps and chemical warfare service. Upon the completion of the course the men will be assigned to organizations in their own arm of the service if vacancies exist.

One thousand recruits will on June first begin their course at Camp Grant with a month's military and recruit instruction so that by July 1 they will begin their course of study.

Private Sullivan, of the recruiting service, who is at the post office, will give any information as to the vacancies which exist and in regard to the Camp Grant school.

PENNA. FAVORED IN TRACK MEET

But Princeton, Cornell, California and Leland Stanford Will Fight Hard for Team Championship at Philadelphia.

(By Jack Velock.)
By Telegram to The Freeman.
Philadelphia, Pa., May 29.—Pennsylvania's stalwart track and field stars will go to the "post" favorites to win the 44th annual American intercollegiate team championship here this afternoon.

"The sons of old Pennsylvania," fifteen of whom qualified in the trial heats on Friday, will be supported by Pennsylvania milers, Shields, Brown, Irwin and McHale, in their attempt to carry off a lion's share of the honors on Franklin Field today.

Bright weather and a fast track will be alone required to insure brilliant contests in the thirteen events that are to be contested. Weather indications early today were favorable.

Though athletic sharps favor Pennsylvania as the winner today, the Red and Blue will not be without the keenest kind of opposition. Princeton, with 14 men qualified in 11 events, Cornell's five time champions and the bronzed athletes of California and Leland Stanford, who made such a brilliant showing in the trial events yesterday, will fight Pennsylvania to the last gasp for points in a majority of the track and field events.

In all 29 schools and upward of 140 athletes will figure in the games today. Twenty of this number succeeded in placing men in eleven semi-final events on the program for this afternoon, 92 athletes in all, qualifying for all contests excepting the one and two mile runs.

Although Pennsylvania, Princeton and Cornell will enter the finals with a distinct superiority in both "class" and numbers, the fact that any one of this trio may be upset by what the athletes of more than a score of other schools may accomplish, cannot be denied. The outcome of the mile and two mile runs, incidentally, may swing the balance in favor or against any one of these three and the spirit and class shown by California's small delegation of stars must also be reckoned with.

Leland Stanford's great star, M. M. Kirksey, may upset the hopes of the two leading contenders by winning the 100 yard dash, even though he suffered a temporary reversal in the 220 yard dash on Friday because one of his legs, previously injured, played out on him. Kirksey and Leoney of Lafayette, did the "100" in ten flat on Friday.

Among other stars who are sure to shine today are Eby and Brown of Pennsylvania; Sprout of California and Reed of Yale, in the half mile; Smith of Cornell; Erdman of Princeton; Thompson of Dartmouth and Wells of Leland Stanford in the 120 yard hurdles and Maxam of Pennsylvania; Stevenson of Princeton and Eby, Pennsylvania's "ace" in the quarter.

In the 220 yard hurdles, Smith of Cornell, Wells of Leland Stanford, Erdman, Princeton, and Thompson of Dartmouth, will go out to break the record of 23 1/2 seconds.

Leoney of Lafayette, Hendrixson of California, Brown of "Old Nassau," and a fast field of rivals are sure to tear up the track in the 220 yard dash.

Sherman Landers of Pennsylvania is the outstanding star in the field events, though he has a great rival in Templeton of Stanford. Landers is a star in the pole vault and broad jump. Templeton stars in high and broad jumping. Merchant of California is favored to win the hammer throw.

Boy Scouts to Parade Monday.
The attention of the Scoutmasters of Kingston and their troops is called to the fact that they are to appear at Scout headquarters, 243 Fair street, next Monday morning at 8:30 to form for the big parade of which they are to be a part. All who have their are asked to come dressed in their uniforms. The fliers and drummers are to be there in good time. It is expected that every Scout will be there since Prof. Michael has excused them from marching with the schools. Remember that a "Scout is loyal."

With General Murguia, commander-in-chief of the Mexican forces fleeing from the revolutionists, General Carranza inspected the positions before the battle of Rinconada. This photograph probably is the last one taken of the Mexican fugitive president before his death. Carranza was offered safe conduct out of the country by the revolutionary leaders, but refused to accept, and his assassination in a hut near Tlaxcalan was followed. General Rodolfo Herrera is charged with the killing, and General Obregon blamed the slain man's aides for not standing by him in the last fight.

ALLEN-GOMPERS DEBATE GREW HOT

By Telegram to The Freeman.

New York, May 29.—Although prominence in the news columns is given in all of New York's morning newspapers to the debate at Carnegie Hall between Governor Henry Allen of Kansas and Samuel Gompers, president of the American Federation of Labor, no paper ventured to give a decision and no editorial comment is made. A consensus of reports indicates that the debaters dealt in generalities rather than upon any specific issue.

There were no judges and no official decision was given.

The discussion centered chiefly about the right of workers to strike. President Gompers insisting that such a right is inalienable and Governor Allen advocating the right of the state to pass laws to protect the public from the effects of strikes. President Gompers declared the Kansas industrial relations law infringed upon the privilege of the individual to stop work, while Governor Allen declared the law simply "takes away from Mr. Gompers the divine right to order him to quit work."

Toward the close the debate became somewhat acrimonious and the crowd frequently interrupted the speakers with partisan demonstrations.

AT THE THEATERS.

Vaudeville and Other Pre-Holiday Attractions.

Gladys Leslie in "The Midnight Bride" offers a clever comedy photoplay at the Opera House tonight in addition to three acts of clever entertainers. Commencing Monday at the same theater, "Some Wild Oats" is to be shown for three days. This is an educational photoplay produced under the direction of the U. S. Navy and Royal S. Copeland, health commissioner of New York city. This film is said to offer an opportunity to Kingston parents to send their sons and daughters to see a photoplay that will tell the story of life in a beautiful way that parents today think children should find out for themselves, while public officials the world over are striving to take the terrible condition of today and show these same parents the error of not telling and impressing on the minds of their children the awful effects of wrong living. There have been arranged separate performances at 2 and 7 daily for women only and 4 and 9 for men only.

Keener's tonight will present the favorite Elsie Ferguson in "Counterfeit." On Monday, May Allison, the beautiful, in "The Walkoffs," a delightful romance of love in old Kentucky, leading into New York's very own social set. A Mack Sennett Comedy and Ray Pictograph are added features.

The Auditorium will present Tsuru Aoki, a new Japanese star, in "Locked Lips," a thrilling dramatic love story with action and suspense throughout in addition to the new sensational serial starring William Duncan, "The Silent Avenger," Monday, Roscoe Barricade in "The Notorious Mrs. Sands" and the final chapter of "Lightning Bryon," and starting a new serial "Elmo the Fearless," starring Elmo Lincoln.

Mr. and Mrs. Raymond Ingraham and family have moved into Mrs. Mann's bungalow.

The Misses Leita and Hannah Randall, Nellie Smith and Mrs. Norman Wilber motored to Kingston with Stewart Randall on Friday.

Mrs. Royster and little grandson, Allen Royster of Brooklyn are visiting Walter Trempier.

Mr. and Mrs. Staley and family called at the Randall home Sunday.

Mr. and Mrs. John Gardner called on Mrs. Andrew Lane Sunday.

Mr. Winter of Kingston, the pianist, was in town doing some work for several parties Thursday.

ENVELOPES WITH STAMPS ADVANCE

Uncle Sam a day or two ago took a hand in advancing the level of the high cost of living by making operative a material raise in the price of stamped envelopes at the Kingston post office and at the uptown and downtown stations. The increased cost of production is given as the reason for the decision.

Stamped envelope No. 5, which is the one most commonly used, without printed return, did cost \$21.44 per thousand and the new price is \$22. With printed return the old price was \$21.72 and the new price is \$22.26.

No. 13 size which is next commonly used, plain, did cost \$21.56, now \$22.16. With return printing the cost advances from \$21.86 to \$22.46.

Official size, No. 8, in plain, goes from \$22.12 to \$22.96, and with printed return from \$22.56 to \$23.40.

When the notice was received by Postmaster DeWitt from the post office department at Washington the local office found but a small stock on hand as it had been difficult to get requisitions filled, especially some of the sizes in greatest demand.

The advance this week in price is the third advance in the past two years. The last raise was made in July, 1919. The envelopes are all printed under competitive bidding contracts by a firm in Dayton, Ohio.

Responsibility.

Nothing can be so inspiring to a human being as the idea that he is of value, that his help is really wanted. Nothing can so enforce the doctrine of responsibility as the realization that it rests with us to choose whether we shall mend or mar, shall beautify or deface, some portion of the work.—Oliver Lodge.

Nicoline Sorge

The ancient idea of marriage by capture—the treat 'em rough, grab 'em up and carry 'em off style—still survives. Brooklyn, N. Y., witnessed an example of it recently, but this episode did not quite reach the marriage stage. Miss Nicoline Sorge, 26, while on her way to work was forcibly dragged into an automobile which sped away. Later in the day Miss Sorge, highly excited, ran up to a policeman and told him her story. She said that a former suitor had kidnapped her in the automobile and taken her to a house in Woodhaven. There he threatened to kill her unless she married him right away. On the pretense that she wanted to telephone to her home, she said, she got outside the house and ran to the policeman. The police are searching for the cave-man wooer.

Mrs. Carroll L. Wainwright
Daughter of Mr. and Mrs. C. Gould

Miss Edith C. Gould, beautiful eleven-year-old daughter of Mr. and Mrs. C. Gould, eloped several days ago with Carroll L. Wainwright, twenty, Yale undergraduate and son of Mrs. Carl F. Wolf of New York city. The couple traveled to Philadelphia and were unable to get a license because of the bride's age. They then motored recently miles to Elkhart, the Maryland Green and were married by the Rev. John McElroy, pastor of the Elkhart Presbyterian Church, in the parson of the manse. The only witness was the chaplain of the hired automobile. Quick parental forewarnings came to the young couple. George J. Gould wired his speed without delay sending a telegram from the Niagara. Mrs. Gould is the third member of the millionaire family to elope. Her brother, Franklin and George J. Jr. were married within a few days of each other in 1914, causing a stir in society and separating themselves for a period from the bosom of their family.

JANDORF DEATH ROUSES STUDENTS

By Telegram to The Freeman.
Madison, Wis., May 29.—Students of the University of Wisconsin roused to a high pitch of anger, today demanded an investigation of the death of Carl Jandorf of Grand Rapids, Mich., a sophomore, who was shot and killed Friday by Policeman Matt Lynaugh while a crowd of students, Jandorf among them, were badgering him as he was arresting Julian Jany, one of a number of freshmen, who had made off with a barber pole.

Following the slaying, the policeman was locked up in jail. About 100 students had gathered there with the intention of getting him and taking the law into their own hands. Extra guards were thrown about the building, and the students warned that any attempt to rush the jail would be met by force. The students then dispersed.

The shooting occurred within a

block of the university, after Policeman Lynaugh had detected the freshmen loading the barber pole on a truck for the purpose of adding to their kinking for the annual "green cap burning," which was to have taken place on the campus Friday night.

The freshmen ran when they saw the policeman, but the latter outran them and arrested him. Then Jandorf and several other students appeared. They are said to have demanded Lynaugh's release. The policeman declared that Jandorf struck him and that he fired in self-defense, but the students assert the policeman first kicked Jandorf in the shins and then shot him.

How Bridal Veil Originated.

The bridal veil is said to have originated in the ancient custom of performing the marriage ceremony under a square piece of cloth, held over the bridal couple to conceal the blushes of the bride. At the marriage of a widow it was not used.

KRASSIN TO MEET LLOYD-GEORGE

By Telegram to The Freeman.
London, May 29.—The first meeting between Premier Lloyd George and Gregory Krassin, the Russian Bolshevik trade envoy, will take place early next week. It was learned today from an authoritative source.

M. Krassin was silent on reports that he came to England empowered by the Moscow soviet to negotiate peace.

"I hope the British and the Russians can come to an understanding," was the only statement the Bolshevik emissary would make.

According to the Daily Herald, the official organ of the labor party, the Russians will not bring any gold to London unless its safety is guaranteed. They promise that it will be used only for commercial payments.

The Daily Herald says that British bankers want payments made at the pre-war price of gold which would mean considerable loss to the soviet.

COUNTERFEIT NOTES.

Federal Agents Discover Spurious \$10 and \$5 Bills.

Two new counterfeit notes have been found in circulation by government agents, and the Federal Reserve Bank issued Friday a warning against the spurious currency. The two notes are a \$10 federal reserve note and a \$5 national bank note.

The former is drawn on the Federal Reserve Bank of Atlanta, Ga., and is described as a "very poor straight photographic note, no attempt being made to color the seal and serial numbers on the face of the note."

The other is a counterfeit against the First National Bank of New York in the denomination of \$5, which is characterized in the reserve bank's warning as "a fairly deceptive photo-mechanical counterfeit note, printed on one piece of a good grade bond paper, with red and blue ink lines to imitate the silk fibers of the genuine note. The back of the note is very poor."

The Federal reserve counterfeit was first passed in New Orleans and that of the national bank in Philadelphia.

As a result of a fright her mother received in the first Zeppelin air raid over London shortly before her birth, little Winnie Fennimore will carry a birthmark through life. The mark is on the child's body, is about four inches long, dark brown in color and well raised. The child lives in the Kensington District of London and is nearly five years old. The arrow indicates the birthmark. Note its resemblance to that of the German air monsters.

Famous Small Bells.

The source of the dinner table "call bells" is not always traceable. Some come from old churches, where they have served as altar bells, especially those that have Latin quotations on the medallions on the sides of their cup-shaped gongs. Those that represent famous personages are after the fashion of the period in which their deeds made them familiar figures in the public eye. Some are patterned after the bells in certain famous chimes—like the copies of bells from the famous Miller collection in California.

General John J. Pershing photographed at Hoboken, N. J., as he looked upon his arrival from the Canal Zone aboard the Northern Pacific. The general has been on a tour of inspection of the Panama Canal and stopped at Porto Rico on the run northward. He declared that the Panama Canal was the most wonderful thing he had ever seen, and urged Americans to visit the Isthmus. The general looked somewhat browner and stouter than he did when he returned from France last year. Simultaneously with the general's arrival from the Isthmus came the news from Chicago that the Wood Brothers, of Nebraska, who were managing Pershing's political campaign in that state, had cancelled the option on a suite of rooms in Chicago which were to be used as his headquarters.

The Woodcock.

The woodcock provides one of the finest examples of protective coloring that nature has ever made. His bright eyes, however fitted for the night work to which he puts them, are sometimes his betrayer. The female woodcock is larger than the male and its weight varies as widely as to run between eight to twenty-seven ounces. Woodcock is a tremendous glutton, so he is fat. The woodcock can fly either lazily as a rail or as swiftly as a swallow.

Henna Stain on Hair.

Henna leaves, dried and powdered and made into a paste or pomade with hot water, produce a reddish or orange stain and are used largely by eastern peoples for staining the finger nails and finger tips, as well as the hair. The hair is covered with this paste and enveloped with a hot cloth, which is allowed to remain for two or three hours as desired. A mixture of henna and indigo will color the hair jet black if used in the correct proportions.

"THE MIDNIGHT BRIDE"

Miss Leslie proves to be the prattiest little country girl who ever bobbed into the world's greatest city and picked out a millionaire husband and married him at midnight and lost him in an hour. And that isn't nearly all she does in this tremendously remarkable picture.

How Many Times Can a Man Beat Death?

Twenty times Phil Read escaped death in various horrible forms while fighting back against seen and unseen enemies who falsely robbed him of his honor and name—made of him a branded felon. But once more he was forced to face death, alone and helpless in a Chinatown den. Strung up and slowly strangling to death he beat it again! How—?

HOUSE OF REPRESENTATIVES
COMMITTEE ON MILITARY AFFAIRS
WASHINGTON, D. C.

July 12, 1919.

Mr. Samuel Cummins,
617 E St., N.W.,
Washington, D. C.

My dear Mr. Cummins:

I am deeply interested in the fight that is being waged by the Public Health Service, and the Medical Departments of the Army and Navy against venereal diseases. It is a much more serious matter than the average American citizen realizes.

The motion picture called "Some Wild Cats" bring the subject to the attention of the spectator in a most vivid manner. The story is simple but effective. I wish the picture could be seen by every one.

Let me wish you every success.

Very sincerely yours,

HOLIDAY TRAFFIC ALREADY HEAVY

Many automobiles filled with men and women from various parts of the country passed through this city Friday afternoon and evening and all of today, being the usual pre-decoration day rush for the Catskills and Sullivan county sections in the vicinity of Ellenville. Mr. and Mrs. George J. Gould, Jr., and daughter, Gloria, and a party went through this city in touring cars on Thursday for Poughkeepsie, near Arkville. The Stuyvesant, Eagle, Kirkland hotels and the Mitchell House were filled with tourists Friday night, and there is a large reservation for tonight at the above hotels, also the new Caneo Hotel.

Not in years has there been such a heavy travel into the mountains for decoration day holiday season. For the past few days every road leading into Kingston has brought a steady stream of motorists from the larger cities bound for the mountains to spend the holiday. Saturday being a half holiday and both Sunday and Monday being holidays many people are taking opportunity to get up in the mountains for a holiday without losing time from business. The traffic by automobile was so great last evening that all hotels were crowded with tourists desiring to spend the night in town. A number of hotels were filled and in many instances tourists were turned away.

Boarding house keepers in the mountains have opened their places for the season and are doing the biggest business in years. Friday afternoon and today special trains were run from New York to bring the holiday crowds up to the mountains.

THE JOINERS.

News of Interest to Members of Fraternal Societies.

Ladies' Auxiliary, Sons of Veterans, will not meet Monday. The members are requested to meet at Wilbyway cemetery to fall in line to go to the city hall.

Rondout Lodge, No. 243, F. and A. M., will not meet Monday evening, but a regular communication will be held Monday evening, June 7, at which time the third degree will be conferred on five candidates.

Ladies' Auxiliary, Sons of Veterans, request all members to meet the 11 o'clock train Sunday morning to welcome the sisters from the Newburgh Auxiliary who will be guests of the local auxiliary at the memorial services at Kingston Point.

COMES BACK TO FISH.
Former Kingstonian Enjoying Trip Fishing in Catskills.

Dr. Harold Sutton, formerly of this city, is spending several days in town and while here will enjoy trout fishing trips in the Catskills. Dr. Sutton has been away from Kingston for twenty years, but returns annually for a few days trout fishing in the mountains. Other Kingstonians who are residents of Providence include Thomas Rush, who is the owner of a large shoe store, and Dr. Cloughston W. Skelton.

Beating The Bicycle.

While backing his limousine against the curb in front of the National Water County Bank, Building at Wall and John streets at noon today, Clarence T. Flier ran his car into a bicycle which was at the curb, breaking the front wheel of the bicycle.

PRUDENTIAL MEMORIAL DAY

In accordance with the custom all over the country in each of the insurance offices of the Prudential Insurance Company, Superintendent Mahar and the local agents held a Memorial Day meeting this morning at the office on Wall street. At the home office of the company at Newark, N. J., a large bronze tablet erected by the company in honor of its seven hundred and twenty-nine employees who served in the world war and in remembrance of those who lost their lives in the service, was unveiled. On the tablet are engraved the names of the men who gave their lives during the war.

From the local office two men participated in the great struggle, both of whom returned safely.

The program this morning at the local office included an address by Mayor Canfield, who ably reviewed the events which led up to the commemoration of Memorial Day. Superintendent Mahar, in charge of the meeting, opened the program with the singing of "America" by the staff, assisted by the Prudential quartet. Following the address by Mayor Canfield, Edward Geschwind, who served over seas, and H. L. Cox gave readings and the program was brought to a close with the singing of "The Star Spangled Banner" by the entire staff.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Brazil Hasbrouck died today at Rosendale. Funeral will be held from the residence of Mrs. Rufus Snyder, Main street, Rosendale, Tuesday afternoon at 2 o'clock. Interment in Rosendale Plains cemetery.

Lettie, wife of John Hamilton, died this morning at the home of her daughter, Mrs. Amelia Taylor, 171 Greenhill avenue. She is survived by three sons, Herman, Chester and Cornelius and one daughter, Amelia. The funeral will be held Tuesday afternoon at 2 o'clock at the residence. Interment in Wilbyway cemetery.

Margaret O'Connor, wife of Josiah Tubby, and a former resident of this city, died Friday in Brooklyn. She is survived by two sons, Charles and John; one daughter, Mrs. Charles Rivers; and two brothers, Peter of this city and James of Jersey City. The remains will be brought to the funeral chapel of N. D. J. Murphy Sunday.

Marks Bacharach and sister, Lillian, returned from Philadelphia, where they attended the interment of their brother, Dr. Harvey Bacharach, who died in San Diego, Cal. Dr. Bacharach was the son of Levi Bacharach and was born in Kingston May 16, 1865. He practiced medicine in North Dakota for a number of years but spent the past winter in San Diego on account of ill health. He was a life member of the Minneapolis Elks, No. 44, and of the Masonic Order of that city. Dr. Bacharach is also survived by his widow, who was Miss Minnie Arnold of Minneapolis; two sisters, Mrs. Rose Kingsley and Miss Bertha Bacharach, and one brother.

Miss Mary E. Westbrook of Kyserville died Thursday evening, May 27, in her 14th year. Blossoming into a beautiful womanhood she was admired, respected and beloved. She had chosen a noble field of service to which she hoped to give herself when the days of preparation should be over. For three years she was a student at the Kingston high school and had her health permitted she would have been one of this year's graduating class. She is survived by her father and mother, Mr. and Mrs. J. Louis Westbrook, of Kyserville; a brother, Theodore Westbrook, attending Hamilton College and a sister, Miss Wilhelmina Westbrook, who attends Kingston high school. Funeral services at her home in Kyserville on Monday afternoon at 2 o'clock (standard time).

The lasting mystery which has shrouded the robbery in New York's financial district in which the loot amounted to \$1,200,000 during three months, was partly cleared by the alleged confession of Richard Armstrong, of Brooklyn, a real life "Jimmy Valentine." In all of the burglaries the strong boxes were opened without being impregnated or marked in any way. Armstrong's confession was made after a jury had been selected to try him for the robbery of the office of Irving A. Deering, in Wall street. Armstrong is believed to have been the head of a band of eleven burglars, including two women.

Temperature Important.

Lead is said to act like steel at ordinary temperatures in liquid air. It will become as brittle as glass, for example. This behavior of soft metals at low temperatures is very interesting. It shows how very important temperature is. Just as iron is soft and malleable at a high temperature, so lead is soft and malleable at ordinary temperatures, for it is well up its way to be melted.

ABOUT THE FOLKS.

Miss Mary Richardson of Gage street is spending the week end with friends in New York city and Yonkers.

W. Fletcher Prull, bond salesman with a well known New York brokerage firm, is visiting his cousin, Walter J. Kidd, at 163 Boulevard.

Melvan Freer of Buffalo, formerly a resident of this city, is a guest over Decoration Day of his sister, Mrs. William Haines, 69 Hoffman street.

Miss Harriet Mastler, the fiancée of Harry Kingsburg, and little Caroline Hart, both of the Bronx, are visiting at the home of Mrs. I. R. Kingsburg on West Union street.

Mr. and Mrs. Charles R. O'Connor and daughters, Margaret and Eleanor, Miss Kathryn O. Van Keuren and Mrs. Wesley Thompson are motoring to Hartford, Conn., expecting to return on Sunday.

Mrs. Robert Murphy and daughter, Katharine, have returned to their home on East Chester street, after having spent a short time in Philadelphia and Camden, N. J., as the guests of Mr. and Mrs. J. F. Murphy and J. F. Burns.

Mr. and Mrs. Wallace Freer are in New York city for a few days visiting their daughter, Miss Beatrice, who has been taking charge of the Missionary Research Library, Madison Square, while Mrs. Fash is in China. Miss Freer will accompany her parents home for the summer.

SOCIETY NOTES.

The nurses and patients of the Kirchner Home, Staples street, this afternoon tendered a miscellaneous shower to Miss May Morgan at the home. Miss Morgan is a very popular nurse connected with the institution, and is soon to wed George Kieffer of West New York.

The joint indictment of William M. Wood, president of the American Woolen Company of Massachusetts and the American Woolen Company of New York, and both companies by the federal grand jury, New York, on a charge of profiteering, has created quite a stir in the east. Mr. Wood and the companies are charged with fourteen separate violations of the Lever law. Herbert C. Smyth, special assistant to the United States Attorney General, alleges that the companies have increased their prices this year more than 300 per cent over those of 1919. Mr. Smyth will, it is expected, ask for heavy bail.

Washington as Father of the Navy.

An article in the United States Naval Institute of last December by Edgar Stanton Mayday asked the question, Was George Washington the father of the United States navy? According to this authority, before John Paul Jones or John Barry received their commissions, or, indeed, before congress decided to establish a navy, Washington issued commissions on September 2, 1775, to armed craft for the expressed purpose of catching enemy transports and cruisers. Washington borrowed the armed schooners, Lynch and Franklin from Massachusetts, and commissioned them to cruise against the enemy. He also commissioned other armed craft, including the Lee. It was not until October 13th, 1775, that congress appointed its first naval committee, and not until the 13th of December that congress authorized the construction of the first vessels of our navy.—Scientific American.

The Honeymoon Disappearing.

The real, old-fashioned honeymoon, a four weeks' isolation near some favorite holiday resort seems to be a thing of the past in the old land, says the Montreal Herald. War killed the custom as it has killed many others. What interfered with its re-establishment is not only feeling against it as a waste of time, but also the high cost of traveling and the expense of holiday hotels, plus the difficulty of finding quarters. The aspiration of the young people of today is to settle down in the home they have managed, by dint of struggling, to secure, or to set to work to find something nearer the ideal than hotel or boarding-house accommodation. In other cases a week and at the seaside or a few days at a quiet holiday resort and kept secret from others, as a good center for golf and country walks, suffices.

Chemical Glass.

During the last half of the year 1917 we exported glassware for the first time in our history and for 1918 our total production was valued at \$2,965,344 more than double what we used when we had to buy it abroad. At the present time glass is imported here if it is to be employed for exceptional purposes and the state of the domestic glass industry is so good that congress is being urged to encourage this preference.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

AMERICAN SCOUTING'S START

Everybody knows of the Boy Scouts, but few people are aware that one small boy in a crowded London street inadvertently planted the acorn that has grown into that sturdy oak, the Boy Scouts of America.

W. D. Boyce of Chicago in 1909, on his way to a certain destination in London, lost his way in the devious mazes of that city. Pausing in uncertainty to get his bearings, he was confronted by a small boy who saluted and asked politely if he might be of service. Pleased by the lad's manner and grateful for the timely offer of aid, Mr. Boyce accepted the lad's guidance, and arrived at the goal, offered him a shilling. To his amazement the boy drew himself up, saluted with dignity and replied that he was a boy scout, and a scout never took tips for small deeds of courtesy. His curiosity piqued by this response, the American asked pertinent questions as to boy scouts, of whom he knew nothing at the time. He was promptly conveyed to the British scout headquarters and introduced to Sir Robert Baden-Powell.

When Mr. Boyce sailed for home he brought with him a trunkful of scout literature and a determination that American boys should have scouting at once and effectively.

SCOUT LEADER'S UNIFORM

War Department Advice and Experience Have Been Followed in This New Model Uniform.

SCOUTS AID OVERWORKED CATS.

The boy scouts have rallied to the aid of Chicago's hard-pressed cats, and some much-needed infectious diseases will not spread further—not if the boys and the cats can help it.

An intensive campaign for the extermination of rats and ground squirrels has been launched by the scouts. Eight thousand scouts, taking with them some hundreds of rat terriers, are in search of the rodents.

The most energetic boys and the best trained terriers will lurk about South Water street, where the biggest rats are to be found.

THE BOY SCOUT'S BUSY LIFE.

Rushkill, Pa. Scout Troop No. 1, keeps the churchyard clean, removing dead leaves and trees. Washington, D. C. Scout Troop No. 2, found two lost boys after a long search in the woods.

Boy scouts of Black river, Jefferson county, New York, succeeded in carrying practically everything from the first floor of a burning house. The fire had gained such headway that they were unable to save the goods on the second floor.

The second district of the Boston scout council has a radio communication unit for scouts over 15 years of age.

Henry Mier of Iowa, Mich., a boy scout, proved the benefit of his scout training at a fire. At the alarm of fire he rushed out and in keeping with the code of the organization began immediately looking for something to do. His efforts were directed toward the high board fence that separated the habitation of the electric lights from the burning buildings and he kept water on it all the time by making good use of a ladder.

Justice Greatest of Virtues.
The sense of justice was never born in the human heart. This distinct virtue is at variance with the instincts of the individual and justice itself is essentially unselfish. Justice is the foundation of all the other virtues—the backbone of civilization and the great soul's only.—Sir Richard Cocks.

GAS COMPANY

FEELING PINCH

Kingston Company Along With Real Estate Urgent Need of Higher Rates—Oil and Coal Cost More and are Hard to Get—Export Finances Adversely Affected.

The conference of gas company executives called by the emergency committee of the American Gas Association was held at the Hotel Pennsylvania, New York city, May 26. The conference was attended by some three hundred seventy-five men, representing the executives of several hundred gas companies. The Kingston Gas & Electric Company was represented by C. R. Stull, manager, who reports that there was a general unanimous opinion that the gas situation existing throughout the entire country is extremely critical and statements were made by representatives from all sections that unless quick relief was afforded the companies both in the matter of rates, as well as the obtaining of gas oil and coal that many companies would be forced to discontinue their service before next winter.

The urgent need for immediate and substantial increase in rates was voiced by every delegate present. These increases were held to be essential in order to meet the greatly added cost of oil, coal, labor and other items and in addition to restore and protect the credit of the gas companies pending a permanent solution of the situation.

As illustrative of the condition affecting the local company the two main items that enter into the production of gas in Kingston showed tremendous increases in cost since 1915. At that time gas oil was being purchased for approximately 3 1/2 cents per gallon, as at the present time it is over 13 cents a gallon, representing an increase in the cost of production of practically 35 cents per thousand. In the case of gas coal, which is required for the gas making process, there has been an increase here of \$4.70 a ton, representing approximately 47 cents per thousand on every thousand feet of gas manufactured. Added to these costs are increased costs of labor and other materials entering into the gas making process and necessary for the upkeep of the plant.

While the rate situation is a most important factor, one of the most serious phases of the industry is the inability to obtain supplies. Some gas plants in the middle west have been forced to shut down from two

to four days on account of not having supplies of gas oil and gas coal. Two weeks ago Kingston Company was within three days of entirely running out of gas coal. Among the causes contributing to inability to obtain materials are the labor conditions existing at the coal mines where labor is making unwarranted demands for increased wages and then resorting to strike weapons to enforce it. This results in decreased production of the coal. The outlay railroad strikes have made it impossible to transport such coal as might have been available at the mines. This results in the public utilities finding themselves held between rates on one hand and inability to obtain supplies on the other and this situation is undoubtedly soon to be reflected and a curtailment, if not almost a discontinuance, of service unless the public gives the support which is necessary. The discontinuance of gas supply would be almost a calamity for any city or town. It is estimated that about half the population of the United States is dependent on the gas companies for service. In the larger cities possibly 80 to 90 percent of the population is dependent on gas service and consequently the discontinuance of this service would prove a calamity.

The conference went on record that emphatic protests should be made through every possible agency and personal contact to prohibit the present exports of oil and coal. This would afford a certain amount of relief and quick action on this suggestion is necessary.

FINANCIAL AND
COMMERCIAL

By Telegram to The Freeman
New York, May 29.—The stock market opened with listless trading and towards the end of the first fifteen minutes, business came almost to a complete standstill. There were some gains at the opening which were lost in the next few minutes, while other issues which opened down, moved back to around yesterday's final price. Rock Island was a special feature, making a gain of 3/4 to 37, the highest price at which that stock has sold in recent times. Reading made a gain of 1/4 to 85 1/2 and there were small fractional changes in other railroad issues. U. S. Steel moved up 1/4 to 94 1/2, only 200 shares being traded in the first quarter of an hour. Republic opened up 1/4 at 51 1/2, and then fell to 51. Pan-American was unchanged at 16 1/2, and Mexican Petroleum opened with a gain of 1/4 at 177 1/2.

The market closed irregular; government bonds unchanged; railway and other bonds steady.

Miss Maria Tucci

Pretty Marie Tucci, twenty-year-old Italian, was sentenced to New York after having been found guilty of manslaughter in killing her sister, Mrs. Angelina Conti, whom she was trying to compel her to live a life of shame.

The legendary suckling of Romulus, the founder of ancient Rome, by a she wolf has found a parallel in the nursing of baby sister, Foxes, by motherly tabbies at Prince Edward Island, Canada. Silver fox raises suffered the losses of thousands through the killing of baby foxes by the mother fox. The unwillingness of the mother foxes to have their offspring handled by the caretakers of the farms often causes them to hide their young in secret underground burrows where they die unless found in time. As soon as a batch of baby foxes arrive, they are immediately taken from the mother and turned over to motherly rabbits whose kittens have in turn been taken from her. At the end of six weeks the baby

C. E. ENTERTAINMENT

At Fair Street Reformed Church
Much Enjoyed.

The entertainment given Friday
evening by the members of the Chris-
tian Endeavor Society of the Fair
Street Reformed Church was one of
the most pleasing affairs ever given
by the society.

The lecture room of
the church had been very handsomely
decorated for the evening with
American flags. A program which
contained a number of surprises, was
given. Grilling brothers, pianists,
saw several very delightful numbers
during the evening, including piano
duets which were thoroughly appre-
ciated by the large audience. Mr.
Ossendine's monologues were excep-
tionally fine but the feature of the
evening, the escapes of the hand cuff
king, kept the audience mystified and
wondering how this clever act was
accomplished. Miss Dorothy Mae
Fadden's recitation was another
number on the program which was
fully appreciated by the audience.

The Christian Endeavor Society of
the Fair Street Church has given a
number of entertainments during the
past winter and is planning to con-
tinue them at frequent intervals.

MAY SELL NEAR BEER.

Brewers Attorney Corrects Misap-
prehension.

Contrary to reports appearing in
New York newspapers, according to
William H. Hirst, attorney for the
New York State Brewers' Associa-
tion, the Walker bill does not pre-
vent the sale of so-called near beer
or other beverages of less than one-
half of 1 percent alcohol over the
bars.

"The Walker bill has no reference
to or effect upon the traffic in any
kind of beverage having less than
one-half of 1 percent of alcohol,
by weight," said Mr. Hirst. "It gives
the State Department of Excise
jurisdiction only over such premises
where beverages are manufactured
or sold which contain one-half of 1
percent of alcohol by weight or more.
Consequently no right of inter-
ference with the manufacture or
sale of so-called near beer exists
either in the State Government or
Federal Government."

Sale of Articles for the Home
Beautiful.

The idea of making the home more
beautiful and more comfortable
seems to have taken a firm hold on
the people of our own as of other
communities, for this movement ap-
parently marks an artistic period in
our development (following the war)
the country over. This is one of
those movements which are "the little
things" that leave the assistance of
someone trained to know just what
and how to utilize the furnishings at
hand or to buy the right new ones
make their homes especially attractive
from their friends and neighbors
want to do the same thing. The re-
sult is that the betterment spreads
until such a community gains the
name of being one of exceptionally
attractive homes, and people want to
make that their residence place.

Mrs. Gordon Reel of 7 Green
street who is doing this interior
decorating work for the people of
this community now has on hand a
number of articles useful and beau-
tiful for sale at her home, and
among them are: Mantel and other
furnishings, bedsteads, paravans,
lamps and lamp and candle shades,
new handkerchiefs, new table
cloths and sets for table sets, twelve-
piece, with rug, table covers and
many small and inexpensive gifts of
attractive articles for the home.

Mrs. Reel will also be able to sup-
ply materials for draperies and gen-
eral house decorations. — Advertising

Palmer Petition Dismissed.

The landlord and tenant proceed-
ing of George Palmer against Mrs.
Frank H. Elmendorf came on for a
hearing before Judge Schirck in city
court this morning. John Cashin ap-
peared for Palmer, the landlord, and
ex-Mayor William D. Brinnier ap-
peared for Mrs. Elmendorf. Mr. Brin-
nieri moved to dismiss the proceedings
on the ground that the petition was
defective and Judge Schirck granted
the motion.

BRIDGE SAFE.

West Shore Trains Ran Slow to Aid
Repairs on Rondout Span.

All trains over the West Shore
railroad coming to or leaving this
city have been running since Sunday
last at a speed of four miles an hour
over the bridge that spans the Ron-
dout creek from the Wilbur section
of this city to the Esopus side. A
week ago an inspector for the rail-
road discovered that there was a de-
fect to the bridge that might become
serious if not attended to, in that a
part of the bridge, known as the
rocker, that is on the top of the first
steel tower from the Esopus side of
the creek, had moved from its place
about an inch and a half. That part

of the bridge on which the rails are
laid rests on rockers on top of the
towers and there are steel rolls in
the rockers placed for the purpose of
taking care of the bridge's contrac-
tion and expansion. A force of ex-
pert bridge workers are driving large
timbers into openings in the rocker,
raising the bridge so it can eventu-
ally be placed back in its right condi-
tion. There is no danger, it is said,
of the bridge going over and travel
is safe and trains are being run slowly
in order that the work of the
bridge workers will not be hindered.

A PRIZE CONTEST
For "Mary Marie" Readers Offered by the Publishers.
Houghton, Mifflin Co., 4 Park St., Boston, Mass.

Mary Marie is the heroine of Mrs. Eleanor H. Porter's latest novel
and she is the most intensely alive and adorable girl that has bright-
ened American literature for many years. After you have made her
acquaintance tell in VERSE FORM what you think of her.

For the NEXT poem of not over eight lines the publishers will give
one hundred dollars' worth of books, to be selected by the winner from
their catalogue.

For the SECOND best poem they will give fifty dollars' worth of
books.

For the THIRD best, twenty-five dollars' worth of books.
And for the next five, five dollars' worth each.

THIS OFFER IS OPEN TO EVERYONE. Not more than eight
lines. SHORTER if you prefer.

Send your poem about Mary Marie some time BEFORE SEPTEN-
BER 1, 1920, to Houghton, Mifflin Co., putting the words "Mary Marie
Prize Contest" in the lower left-hand corner of your envelope.
